U. S. TO FIGHT TO FINISH RUSS FACTIONS BATTLE

President Addresses Labor—Italian Situation
Still Grave—War Must Go on to Bitter
End, Say Allies

ROYAL RUSS TROOPS FIGHTING REVOLUTION

PETROGRAD, Sunday, Nov. 11.—(3 p. m.)—Street fighting is proceeding constantly. Junkers loyal to the Kerensky government regained possession of the telephone station this morning.

The exact whereabouts of the Kerensky army, which is reported to be approaching the city, is unknown at this hour.

Fighting is in progress in the Grand Morskaya between Bolshevik infantrymen and junker forces in armored cars.

Premier Kerensky at the head of 200,000 loyal troops, is marching on Petrograd, where the Maximists rapidly are losing power. The Bolshevik uprising in Moscow was abortive, apparently, and the loyal troops have driven the revolutionists into the Kremlin.

PRESIDENT WILSON ADDRESSES LABOR

BUFFALO, N. Y., Nov. 12.—Six thousand persons were in attendance today at the opening of the convention of the American Federation of Labor, made notable by the address of President Wilson and his stirring, personal appeal to organized labor to give its full and unstinted support to the nation's war program.

Following are extracts from the President's address:

The war was started by Germany. Her authorities deny that they started it. But I am willing to let the statement I have just made await the verdict of history. And the thing that needs to be explained is why Germany started the war.

Germany is determined that the political power of the world shall belong to her. They have been such ambitions before. They have been in part realized. But never before have those ambitions been based upon so exact and precise and scientific a plan of domination.

May I not say that it is amazing that any group of people should be so ill informed as to suppose, as some groups in Russia apparently suppose, that any reforms planned in the interest of the people can live in the presence of a Germany powerful enough to undermine or overthrow them by intrigue or force.

Any body of free men that compounds with the present German government is compounding for its own destruction. But that is not the whole of the story. Any man in America, or anywhere else, who supposes that the free industry and enterprise of the world can continue if the pan-German plan is achieved and

German power fastened upon the world, is as fatuous as the dreamer of Russia.

What I am opposed to is not the feeling of the pacifists, but their stupidity. My heart is with them, but my mind has a contempt for them. I want peace, but I know how to get it and they do not.

While we are fighting for freedom we must see, among other things, that labor is free, and that means a number of interesting things.

It means not only that we must do what we have declared our purpose to do—see that the conditions of labor are not rendered more onerous by the war—but also that we shall see to it that the instrumentalities by which the conditions of labor are improved are not blocked or checked.

CONFLICTING REPORTS ABOUT ITALIANS

BERLIN, Nov. 12, (via London).—The Austro-German forces in the northern Italy have cut off 10,000 retreating Italians in the Upper Piave Valley, the war offices announce. The Italians are said to have surrendered.

The German statement says the Teuton forces have advanced from Belluno down the River Piave and are standing before Feltr.

ITALIAN HEADQUARTERS IN NORTHERN ITALY, Sunday, Nov. 11.—The enemy's operations on the north and east in an attempt at encirclement of the Italians have not succeeded. The menace on the Italian left wing also is virtually past.

SENSATIONS PROMISED IN MOONEY CASE

SAN FRANCISCO, Nov. 12.—Promises of evidence that may bring about the arrest of an entirely new group of defendants, together with the disclosure that a government expert has been secretly investigating for two weeks, figured today in the opening of its investigation into the Mooney bomb cases.

At the Community Club Meeting many nice things were raffled, among them being a fine quilt, which went to Mrs. Winkler. Now Gus wants to wear it for an overcoat, but his better half says he would look like the Mikado of Japan.

M. E. BARACA BOYS TO HIKE

The Baraca Class of Wesley M. E. Sunday school is going on a hike to Long Beach for a winter roast next Thursday evening. They will leave the church at 7 o'clock.

Kaufman Taken in Tow by Federal Authorities

SAN FRANCISCO, Nov. 12.—Henry Kaufman, former chancellor of the German consulate here, who has been in charge of the German affairs since the consulate was taken over by the Swiss consul on the declaration of war, was yesterday arrested as an enemy alien on a Presidential warrant by Deputy United States Marshal Thos. M. Mulhall.

Kaufman is under indictment as a conspirator in the Hindu plot which is scheduled for trial before Federal Judge William C. Van Fleet on November 20.

Woman Spy of the Confederacy Dead

Mrs. Ananale Marie Ducayet Simms, aged 94, reported to have been a daring spy during the Civil war in the Confederate cause, died in New Orleans recently. She was a most daring woman and figured in many dangerous missions. With her small son, who always accompanied her, she was captured several times and escape in every instance was due to her cunning. In every way, before, during and after the war, she was a remarkable woman.

LETTER FROM LAMOINE NOW IN FRANCE

The following letter from Bert LaMoine, a Richmond boy now in France, has been received by his brothers here.

LaMoine was one of the first University of California men to go to France as an ambulance driver, has successfully passed his examinations for the United States aviation corps and is now, presumably training at Tours, France. The letter gives interesting views of the war and news of other California men in France. The ambulance units from America has now been transferred from the French to the American army, the letter says:

"Am just back from my ten days' leave, and, needless to say, I had the time of my young life—four days of Paris and six at Deauville, so what more should I want? But even then they were too short to suit me.

"Whit Wright and I went together. We started out at 11 in the night, and had to walk five kilos to the station to catch a train. It was one of those rare evenings, and we did not mind the walk at all. Just as we neared our 'gare' (station) the Boches in planes started to bombard a village near by. We went up to a graveyard on a hill to get a reserved seat and watch the fireworks from a vantage point—some place to go! They must have dropped about 100 bombs, which did a lot of damage, as they are very high explosives. The whole horizon was a mass of strong searchlights, like so many fingers pointing up at the Boches; bunches of star shells were sent up to point where they were, and lots of shrapnel followed, but it is seldom that they get one that way.

"When it was over we continued on the station, only to learn that our train was late.

"At last our train arrived. Four of us Americans got one compartment. The train was nothing but a third-class one, so we tried to sleep (Continued on Page Four)

FOOD PRICES TALK OF TOWN

Co-operative Store Is
Discussed—Argu-
ment Pro and
Con

Food prices and the constantly soaring cost of all the necessities of life continues to be the talk of the town, and aside from war talk that is about all one hears around at any place where two or more persons congregate together.

The campaign started by the News to get people to trading more at home and less in Oakland started everybody to talking and from this paper is taking advantage of the opportunity to learn all that can be learned about it.

In the peddlers license, up for action on the part of the city council, the ordinance is to be fought by outside parties, as was to be expected, as the raise from \$15 a quarter to \$60 a quarter cuts into their business materially. The local merchants claim that as they pay local taxes, hire local labor, pay local rent, and put their profits into local circulation, they are entitled to some protection from peddlers who do none of these things. This is true, as long as they compete, or nearly so, with outside concerns.

Peddling wagons have been going around lately offering potatoes at \$1.50 a sack, and some have phoned into this office asking how this can be, with the local merchants charging \$2.70. If they would stroll out along the Santa Fe tracks and watch these peddlers stop and change two sacks of potatoes into three sacks, they would perhaps be able to figure it out. Also, the potatoes are inferior. We learned yesterday that large San Francisco dealers are paying \$2.30 by the carload, in Nevada, to which freight has to be added. Any time you get something for nothing you get stung.

As to the sugar offered at Oakland, also, we find that in nearly every instance there was a string tied to it—one had to take four pounds of coffee, for instance, at 25c a pound, to get the sugar, and the coffee was poor—cost the dealer 12 1/2 cents per lb. And so it goes.

It is probably true that slight saving can be made here and there, but when the time lost in going and coming, and the carfare is added, it does not pay in the long run. And besides, it is still true that every dollar spent on the outside damages Richmond \$1000 worth by its being put forever out of local circulation.

If you make your money in Richmond, spend it here. No other system will ever pay. When you trade here you are helping the town grow and helping to hold your own job. Otherwise the reverse is true.

CIVIC CENTER TEA

The Civic Center Club will hold a 10c Tea at the Club rooms 23d and Macdonald today, 2 to 4 p. m. The ladies have also prepared what they term a "Hoover Box" and the financial returns from same will be donated to the Y. M. C. A. funds.

Kerensky Intends to Fight for His Position as Premier

STOCKHOLM, Nov. 12.—A bloody encounter has taken place near Gatchina between soldiers from the front headed by Premier Kerensky and Bolshevik forces from Petrograd, according to advices which have reached Ira Nelson Morris, the American Minister, from reliable sources.

LONDON, Nov. 12.—A dispatch to the Exchange Telegraph from Petrograd, stated Premier Kerensky issued a proclamation saying he would remain commander in chief until a decision on the question had been reached by the provisional government.

REV. BOYER MAKES TWO ONE

Rev. Thos. A. Boyer was called to Hercules yesterday afternoon to perform the marriage ceremony of Miss Alta Marian Eich daughter of J. S. Eich, Pacific Coast superintendent of the Black Powder Works Co., became the bride of Edmond W. Sill.

Miss Eich was attended by Misses Desmond and Helsh, students in Mills College, East Oakland, whose homes are in Hollywood, southern California. Mr. Fred A. Sill, brother of the groom, was the best man. After a brief honeymoon the young couple will reside in Hercules.

MR. O. R. LUDWIG TELLS ABOUT MEAT

Mr. Huraniski.

Dear Sir:

Yours of Nov. 10th on hand, and I am very pleased to give you all the information I can about meat inspection.

First of all, let me congratulate you for your "Home Trading Campaign." Anyone wishing to show patriotism should surely start at home, and help their own town.

In the state of California there are only four cities where meat inspection is strictly enforced, where the stock is killed under the supervision of inspectors, San Francisco, Oakland, Los Angeles and Sacramento. In my own slaughterhouse, Central Avenue, near the county line, I am paying \$100 per month, to the city of Oakland, for one meat inspector who is there at all times, when killing is done, and any animal or part of animal showing any disease is condemned, and under his

(Continued on page 3)

To Fight Gas Rate Raise Hard

Representatives from all the bay cities and throughout northern California met in San Francisco and arranged for a most decided battle against the raise in gas rates asked for by the Pacific Gas and Electric Co. of the State Railroad Commission.

That the opposition will be decided was evidenced by the statements of the speakers who branded as unnecessary and "high handed" the plan of the corporation to dig more out of the gas consumers.

An executive committee of four, including City Attorney D. J. Hall of Richmond, was appointed to arrange for the rate fight. A gas expert is to be hired to give the committee advice and to testify before the railroad commission.

CITY DADS SAW WOOD BUT PLANT NO NEW GROWTH

Lively Session and Reports of Officers Create
Interest and Consider-
able Oratory

At the regular meeting of the city council last night a fair audience greeted the session and much routine business was transacted.

City Health Officer Blake reported that he had investigated complaints about acid fumes from the Stege sulphur factories, cap works and phosphate company, and found that acid fumes were being allowed to escape, but the factories promised to do all they could to abate the nuisance. They are all making war munitions now and the officials do not feel like being too strict with them.

Complaints on charges for weed cleaning were read from J. E. Cryan, Theo. Marcolo and C. E. Phelps, and same were again taken up later.

A petition with seven signatures for an arc light to be placed at 16th and Florida streets. This was referred to the light committee for investigation.

A letter was received from the Federal Reserve Bank, thanking the city council for its good work in the Liberty Bond campaign.

The telephone company asked for a termination of an old agreement on using polls for fire alarm and police purposes, as the same was now covered in the new agreement. Referred to City Attorney.

An extension of thirty days was granted Teasley & Tibbits for completion of the sea wall in the outer harbor, with the understanding that they rush it through to completion in that time.

Reports were filed by the city auditor, building inspector, health commissioner and city engineer, also poundmaster. The auditor showed a balance of \$83,588.90 on hand in cash. The other reports were largely detail and routine.

During the month of October 22

building permits were issued, totaling \$39,064, as shown by the building report. The poundmaster, during the month impounded 38 dogs, two horses, five cows and three goats. (He didn't get ours.)

Relative to the raise of wage of 50 cents a day for the workers on the city streets, as asked for by them, considerable discussion was had pro and con, with some favoring it and some not. Such a raise was not expected or provided for in the budget, and now it is difficult to get around, with the money not in sight. The Mayor and members of the council nearly all had something to say about it, and the final result was that the whole matter was laid over for a week. The heads of departments must in the meantime submit a list of the employees.

A resolution was adopted, ordering the improvement of 15th street from Clinton to half a block north of Gay, nor, with concrete base and paint top.

An application for a transfer of liquor license at 102 Washington Avenue from P. M. Dean to Plorinal Baptista, Washington was read.

Councilman Long, chairman of the license committee, called attention that the license was asked for at the old location but he understood they wanted to transfer it to the Piedmont Hotel. Dean was present and said that was true and the application had been made out wrong. It was then withdrawn and will be filed again next session.

An ordinance regulating street traffic was adopted and ordered to take its regular course.

Action on the proposed storm and sanitary sewers on the Ellis Landing and Dock Company's land was laid over for another week, to give the

Speaking Of The War—

As most everybody is, there is one good which must come out of it, if no other, and that is the fact that it is teaching needed economy to all people—teaching them not to waste, and teaching them to save. Thrift is a godly grace, for sooner or later the time of need comes to most of us. A little savings account drawing interest in the bank is always a friend, always a good thing and frequently staves off distress. Come in and let us explain how easy it is to start one.

GOVERNMENT OWNERSHIP

It makes one weary to be reading continually about the poor railroads needing a raise in rates. That is all bunk. They want higher rates for no other reason than that they have made exorbitant profits all their lives, have robbed the people out of billions of dollars and are not satisfied to get along with a reasonable profit.

The railroads forfeited all the respect and sympathy of the people long years ago, and rightfully so. Their lifelong game has to charge the public all the traffic would bear, and then double it. The solution of the railroad problem is for the government to take them all over and then run them in the interest of the whole people. The first thing the government ought to do is to wring all the water out of their stocks. Every railroad that runs in this country is capitalized for ten times what it cost, and that watered promotion stock has been divided up around among the wealthy magnates to give them all the control and most of the profits. And any time a railroad declares a six per cent dividend it is in reality twenty per cent, because of the water in the stock.

No government on the face of the earth has been so kind to its railroads as ours. It gave them millions upon millions of land, the Union Pacific receiving each alternate section clear across the entire West, and they are the biggest land owners and land hogs in America today, while the poor man can hardly get an acre.

The railroads are a necessary adjunct to building up a prosperous nation but there is a limit to what the people can stand, and that limit has been reached long ago, and has got to go the other way now.

They should all be government owned and operated, and the hundreds of millions of profits they are now making, and have always made, should go into the public treasury, and rates consequently come down instead of going up, as is now demanded.

SOUL OF THE DEVIL

Mr. Otto H. Kahn, a German born American and well-known New York banker and philanthropist, has become a leader in the nation-wide movement of loyal citizens of German birth and ancestry to teach all persons of similar blood ties, that the Germany of today is not the Germany the refugees of eight years ago, loved but fled from with regret. Mr. Kahn describes the change thus:

"From each of my visits to Germany for twenty-five years I came away more appalled by the sinister transformation Prussianism had wrought amongst the people and by the portentous menace I recognized in it for the entire world.

It had given to Germany unparalleled prosperity, beneficent and advanced social legislation and not a few other things of value, but it had taken in payment the soul of the race. It had made a 'devil's bargain'."—Oakland Tribune.

GLAD DAY COMING.

Those of us who do not get killed off by automobiles in the next few years will probably be safe from thence on, as they will be replaced by aeroplanes and other things.

In the meantime it is a dangerous wait.

The Arab rides a dashing steed, the cowboy rides a bronco; the wild goose rides on wings of speed and loudly honks his honk; the deep sea sailor rides a ship across the raging main; in cars the town man takes his trip in search of sport or gain. In many ways men gad about this well known vale of tears, and other means will be found out, among the future years; then aeroplanes and submarines may common carriers be, and all shall soar above the scenes of this land of the free; shall soar above or dive below, nor clutter up the street, where those who walk may calmly go upon their corned feet. Then welcome to that golden age, we sure shall like it well, when we no longer fume and rage about the benzine smell; when man no longer has to dodge to save his sweet young life; twill ease the burden of his lodge and take the stress from strife.

GET BUSY AND DIG

The probe of the high cost of living is going to cost many thousand dollars and probably won't be worth the money. The general trend of prices is upwards, and likely will continue that way until this cruel war is over. Time approaches, however, when there is a chance for the chosen few to accomplish more for themselves than any federal investigation is likely to accomplish for them. The gardening season is approaching, and the time has arrived for the town man to take his back yard agriculture seriously. If the spring fever and the first fish worm fail to call him from his labors and if he works with some degree of intelligence, the garden will make a great first aid for the dinner table and help reduce the grocery bill. If the back yard and vacant lots were given the benefit of intelligent cultivation, they would go far toward feeding the town. And now there is the strong incentive of high prices to induce the town man to break the stubborn glebe. And in becoming the man with the hoe during his leisure moments the town man gets out in the open air as effectively as if playing golf, and with exercise as beneficial. The seed catalogs, as a guide, philosopher and friend, may seem to promise more than the average man can hope to get out of the garden, but he can at least work in that direction and if he doesn't get discouraged too easily he will at least have the keen pleasure of eating vegetables of his own raising which are better than any other kind, and cheaper, which is an important point now.

It never helps a sore toe any to put it on public exhibition.

A gold brick always shines the brightest just before you grab it.

They never hang up the standing room only sign at a prayer meeting.

Romance probably is the most approved method of getting into trouble.

The cheerful liar has friends that are lost to the man who always insists on telling the painful truth.

As a rule children believe in the stork longer than they do in Santa Claus.

A GOOD CHRISTMAS PRESENT.

There is nothing the boys in the army will appreciate more, or get more real and lasting pleasure out of, than a nice bound volume of The Thinkograph. Mail, who have received them write back how much they are pleased, and how all the

boys borrow them and want more. The News has several hundred of these yet on hand, and while they always sold for 75c we have marked them down to 50c, which is only a trifle above actual cost for the binding, as they are got up in artistic shape. Any friend will be glad to one as a Christmas present.

Another Pioneer Passes Away

Another old pioneer citizen passed the way of all flesh yesterday, in the person of Edward Cotton, old time resident of the San Pablo section, who died at the home of his daughter, Mrs. Minnie Iddings, of Berkeley.

Mr. Cotton was well known to hundreds of our citizens, especially the old timers, for he had resided hereabouts since the early days. He was 85 years of age and a native of Genesee, New York. He married Elizabeth Clark in Michigan in August of 1857, and of this marriage four children were born, only one now being alive. He leaves, however, a number of grandchildren, who are likewise well known here. Mrs. Mildred Gon-

ner and Little M. Kitcher, of Berkeley and Francis E. Cotton of San Pablo. Mrs. Cotton died in June, 1904.

Cotton was a veteran of the Civil war, in a military band, enlisting from Detroit, Michigan. He was the sole survivor of this band, which had the honor of playing at the funeral of President Lincoln.

He was a member of the Richmond Post, G. A. R., which will do honors at his funeral from the Curry undertaking parlors in Richmond, Wednesday afternoon at 3 o'clock. The remains will then be shipped from here to Clement, Thursday, for interment, where the wife and two daughters are buried.

INDIAN MUSIC AT THE RICHMOND CLUB

There was a good attendance of members at the Richmond Club last evening, as well as a number of invit-

ed guests, and a most pleasant treat was accorded all present.

After a half hour on the regular program the remainder of the session was devoted to music, and more especially to Indian music, which was the feature. The first number was by L. K. Farren, and was both de-lighting and instructive. Next, twenty-eight girls of the high school rendered some beautiful songs. They had been trained by Mrs. Robinson and accredited themselves splendidly, so all declared.

Miss Ida Diekens, Alameda Chairman of Music, of Oakland, delivered a very interesting paper on "Indian Music," and the program then concluded by another sweet song by the Girls' Glee Club of the high school—"From the Land of the Sky-blue Water." This also was Indian melody and a treat to listen to. Paul Robinson also gave a piano solo that was much applauded. He is a little student of the Grant school.

Mistake About Attorney Pierce

The News is pleased to state that the rumor about the death of Attorney Wilbur Pierce was nothing more than a rumor. It is curious how such stories get around, but they do. Pierce had a serious attack of stomach trouble, and it was thought an operation for appendicitis would be necessary, so his wife in this city was notified by wire, but he took a turn for the better and the operation was unnecessary. At last reports he was feeling much better and will soon be as good as new.

The News was about to wire to Camp Lewis about this yesterday, when the information arrived that he was recovering. All the rest of the Richmond boys are enjoying fairly good health, with the exception of a few hard colds. The weather in the north is much more inclement than here.

Police Get Many in Drag Net

The police were busy Sunday, yesterday and last night.

J. M. McDonald and J. R. McManus were gathered in out of the rain and cold by Officer Mahne for being half seas over with too much 40-rod booze.

Pat Ash also unduly celebrated, and so he increased the court funds by exactly \$5, which was quite reasonable, considering what a helva time he had.

D. McCordie was an old offender. He had been up before and so the court soaked him this time—\$50. Call the next case, said Judge Roth. M. Moutoto was likewise dressed up and drunk. \$10.

C. N. McCormick was gathered in on a felony warrant, charging him with failing to support a wife and child. He lives at 902 Ohio street and will have to answer for it when the case is called.

A. F. Temple was also arrested on a felony charge upon the request of the Oakland police department, and someone from there will call and get him.

Don't forget to attend the Red Cross benefit dance at Kozy Kove, Wednesday evening, November 14. We will assure you a good time.

Martinez Gets Canning Plant

MARTINEZ, Nov. 12.—Another large industry has obtained a site on the Martinez waterfront and will erect a plant to employ many hands.

This is the Manteca Canning Company. With the money all subscribed to build its structures the company has obtained the 15-acre Rancho and Bacillieri tract and has obtained permission from the City Council to go ahead. The Council has agreed to build a roadway to the site. The Southern Pacific will be connected by a spur.

The American Shipbuilding Corporation, which is to put in yards for construction of steel ships by fifty acres of the Martinez frontage, has had several conferences with the City Council this week relative to details. Work is to be rushed.

Boole says, so that at least two steel vessels will be under construction in January.

The Council, to accommodate the new population that is coming into Martinez, is ordering much sidewalk building and street paving and is opening and extending several thoroughfares.

POINT POINTERS

Mrs. W. J. Turpin returned home Sunday after an absence of two months spent at a sanitarium, where she entirely recovered from an operation.

W. L. Whiteside of Reno, Nevada, a brother of Mrs. J. K. Adair, was operated on yesterday at St. Mary's hospital, San Francisco, for throat trouble.

Miss Ellis Lyman, of Ceres, Cal., is visiting for a short time with her uncle, J. S. Moyle.

Doyan Bradley left yesterday for a business trip through South Dakota, St. Paul and other eastern points. He expects to be gone some time.

Mrs. Eva Effinger, after spending several months at Willets, Cal., has returned home.

Aliens Must Go As Well as Others

It is understood among some of the exemption boards that the Federal government is preparing for a nationwide drag netting, which will bring into the service every man who has evaded the first national army call, the filling of which is nearly completed.

Judge Thomas F. Graham, as chairman of the County Council of Defense of San Francisco, is to take up the question of compelling all eligible aliens to be given the choice of entering the military service of the United States or their own countries who are friendly to the American cause, he announced. He declared that if Federal action be necessary, he will go forward with the plan through the national government.

"The situation simply resolves itself," said Judge Graham, "into one of mutual help. We are sending our own men by the millions into the army and navy. It is but justice that our alien allies in this country should come forward and do their bit as well. They should not be given the protection of the flag and then not be willing to fight for it."

Lieut. L. A. Crozier of the British Recruiting Mission, is to make a talk to the Moose of Richmond at their hall tomorrow, Thursday, evening, on the war. He is recently back from the trenches and this talk will be very interesting. Crozier is Past Dictator of the Winepeg Moose lodge.

Tells About the Meat

supervision is sent to the fertilizer works, the proper place for such meats.

According to the statistics from the U. of C. about 25 per cent of the dairy cows of California have been found to be consumptive. We kill in my place, from 100 to 200 cattle every week and sometimes from 5 to 15 per cent are condemned because of some disease. There you are protected, but how about all the places and slaughter-houses outside of the few cities where the inspection is carried out?

There are places, not far from Richmond in the most filthy and unsanitary condition, where cattle in the worst affected condition are killed and sold to the consumers. Some of it reaches Richmond.

To your inquiry about trade with China butchers, I will state that the wholesale and shipping business of Oakland is about 50 per cent in the hands of the Chinese. They found the Oakland butchers asleep and put one over on them. The stock killed at my place is shipped in from different parts of the state and we only slaughter and deliver same for the owners. About half of the poorer grades of stock is sold to the Chinese butchers, which brings us in connection with them, but the man, who told you, that Ludewig buys his meat from the Chinese is either a liar or is mistaken.

Some months ago, the Central Labor Council of Richmond took a very good step to help Richmond clean up Orientals for the benefits and betterment of the conditions of the workingmen. An effort was made to stop some business houses from buying supplies from Chinese. The butchers in Richmond promised not to buy any more meat from the Chinese wholesalers but when it came to sign an agreement or put up a bond, two were as slackers, and those would-be butchers are the ones, who are now trying a very poor business method to increase their sales. My bond is ready to put up any time.

Considering the present conditions and prices for meat and the population of Richmond, I will state, that the butchers in Richmond are handling and selling a grade of meat far above the average and are selling at a price as low or lower than other cities.

Those buyers, who claim they get groceries at Chinatown in Oakland, in most cases carry home the poor grades of meat, which we would not offer to our customers here at all.

The one who is loyal to his own city and patronizes his home merchants will always get the benefit in the long run.

Yours Respectfully,
O. R. LUDEWIG.

Mary Pickford at Richmond Theater

Mary Pickford is again at the Richmond Theatre today, this time in a return engagement of "Rebecca of Sunnybrook Farm," which was here two weeks ago. The story is taken from a novel by the same name, and the novel itself is very well known. Mary Pickford, darrying the title role, is shown here at her best, representing a poor little girl sent to the home of some well to do aunts to grow up. She wins her way into their hearts after almost driving them to distraction with her childish pranks and grows into a fine young woman. Last night the sixth appearance of the picture in Richmond and the huge crowds attending it prove its merits.

SEWING CLUB TO MEET
The Pythian Sisters Sewing Club is to meet at the home of Mrs. Mamie Lang, at San Pablo, tomorrow, Wednesday, afternoon at 2 o'clock. All Sisters are requested to attend.

Will Organize a Boys' Club

On Wednesday evening at 6:30 at the First Christian church, there will be a banquet for boys and young men between the ages of 14 and 25, at which time it is the purpose of those who are back of it, to formally organize a boys' club in connection with the Sunday school. It is very likely that a local chapter of the Kappa Sigma Pi fraternity, a semi-military organization for boys and young men with headquarters at Cincinnati, Ohio, will be effected at that time. This organization is one that comes nearly solving the "Boy problem" perhaps more than any other church organization in the whole field of boydom. A cordial invitation is extended to all boys of the above ages who would like to consider becoming members of some such organization, to be present at this banquet on Wednesday evening.

FOR EMPLOYER AND EMPLOYEE

New York "Clearing House," It Is Believed, Will Be a Benefit to Both.

DIRECTOR OUTLINES SCOPE

Aim is to Bring Together Those Seeking Help and Those Looking for Employment—Need Has Long Been Felt.

By CHARLES B. BARNES,
Director of New York State Bureau of Employment.

A clearing house for non-commercial employment offices, or those not conducted for profit, has been established in New York, under the supervision of Henry D. Sayer, member of the state industrial commission and head of the industrial division of the council of national defense. The bureau, more or less of an experiment, will be financed for one year by a fund made up of \$10,000 appropriated for the purpose by the legislature at its last session, and by a contribution of \$5,000 from the women's committee of the mayor's committee on national defense. There are about 50 of those bureaus in the city.

The clearing house will be under my direction, and will be managed by Maurice L. Ernst, of the law firm of Greenbaum, Wolf & Ernst, who is giving up his practice of law for the duration of the war to lend his assistance to the establishment of the bureau.

The function of the bureau will be the bringing together of firms, factories or individuals seeking help in all parts of the city with persons looking for employment. It frequently happens, for instance, that an employment bureau in one district of the city will receive an order for ten carpenters and not be able to fill it. There may, perhaps, be only two or three carpenters on its list of job seekers, while a bureau in some other district may have a dozen carpenters seeking employment, but no order calling for them. Through the clearing house method those carpenters in the one district will be put in touch with the call for carpenters in the other. Thus much benefit will result both to the employer, whose wants will be quickly supplied, and to the job seeker, whose period of idleness will be greatly curtailed.

The importance of a step of this sort, especially in these times of labor scarcity on the one hand, and of abnormally high living cost on the other, can hardly be overestimated. It is safe to say that, more than to any other one feature, England, France and Germany owe the success of intensive production which they have accomplished since the commencement of the war to similar clearing house arrangement for employment agencies.

TELL OF LESSONS OF WAR

Officials of British Ministry of Munitions Now on a Tour of American Cities.

Lessons drawn from Great Britain's experience in dealing with labor problems during the war will be communicated personally to American labor leaders and employers by four officials of the British ministry of munitions, who are on a tour of American cities, including Pittsburgh, Indianapolis, St. Louis, Chicago, Detroit, Cleveland, Buffalo, New York and Boston.

The delegation, headed by Sir Stephen Kent, director of the labor supply department of the munitions ministry, makes the trip at the request of the Council of National Defense and several state councils.

Other members of the mission are H. W. Garrod, deputy in the labor regulation department; G. H. Baillie, deputy in the labor supply department; and Capt. Cyril Asquith, in charge of distributing workmen for the labor supply department. Some public addresses may be made, but most information will be disseminated through informal conferences which, Secretary Baker in a letter of introduction suggests, should include the most prominent and best informed leaders among employers and workmen, and other persons interested in labor problems.

Since the British officials arrived in this country they have conferred with a number of government officials. American officials have been much interested in British methods of stabilizing labor conditions for the war, and are frankly anxious for serious consideration of American problems in the light of British experience.

Great Strikes Hamper Australia.

Strikes such as Australia had never before known marked all of August and early in September showed little sign of abatement. Government officials asserted that they were due to political and not industrial causes. William M. Hughes, the prime minister, said one of the strikes was a revolt, not a strike, and that "a conspiracy was on foot" made up of violent extremists, syndicalists and Sinn Feiners.

The commonwealth's war burdens were greatly aggravated by the strikes and its war efforts greatly hampered. Five of the six states experienced them at once.

When it comes to real news the NEWS LEADS and the others follow.

City Dads Saw Wood

street committee time to investigate the conditions. The land company asks a reduction of \$2,000 on the assessment.

The postcard vote on the proposed city tree planting howed 463 for and 911 against. It was therefore ditched for the present. It ought to be done, but the lot owners opine that it is too expensive to tackle just now.

W. E. Imbach of the Engineer's office was granted indefinite leave of absence, he being now in the army service.

The matter of the 23d street sewer as laid over for a week.

The weed cleaning work and the charges then came up again and the council voted that any who would make sworn statements that they have cleaned their lots for two years, and yet received bills for same from the city will have the money refunded which they have erroneously paid.

Two lights were ordered installed in the Mira Vista tract, by request and report of the light committee.

Permission was given for the improvement of 26th, 27th, Owens, and 9th streets, in the Harbor Gate tract, by private contract.

Deed for right of way for spur track from Santa Fe tracks to municipal wharf was received from the Belt Line railroad, and a warrant ordered drawn for the sum of \$2,500 to pay for same.

A bill of \$303.26 was received from the California Land Show, and was referred to the finance committee to adjust and audit.

Other routine business took up the rest of the session and the city fathers adjourned late last night, tired but happy. They had scrapped more or less for three hours, but there were no casualties, and no invasions of the trenches which needed the services of the Red Cross or ambulances, so Fire Chief Lemoin and Police Chief Walker went home and got their usual peaceful slumber, while the newspaper slaves went back to their dingy dens and wrote up the proceedings, smoothing down all the rough edges for the belligerents and pouring oil upon all troubled waters which had been the least ruffled.

Big Turn Out at Y. M. C. A. Banquet

A rousing meeting was held last night at the banquet given the workers of the Y. M. C. A. \$5,000 war fund, at the Richmond club. Over seventy-five persons were present to enjoy the splendid menu provided by the club women and to listen to stirring addresses of gifted speakers. Enthusiasm was rampant and it was the voiced opinion of many present that not only would Richmond's allotment be reached but that this city would "go over the top" with far more besides.

The methods, scope and needs of the Y. M. C. A. activities, both in the training camps and at the front, were eloquently presented by F. A. Jackson, of Berkeley, Judge William H. Waste, of the Superior Court of Alameda County and Mr. Elmer E. Nichols. Plans were then explained and all made in readiness for an early start of the campaign this morning. Mayor W. L. Lane, chairman of the executive committee, presided at the meeting and also delivered a stirring address.

The following method of canvassing the city for funds was adopted. Seven captains, each with a team of name provided a number of persons to be personally interviewed by them today. Tomorrow new names will be selected, and so on, until every person living in or near Richmond will be given a personal opportunity to do his most for the great and worthy cause.

Through the public spiritedness of the women of the Richmond Club, a luncheon will be provided at the club house every noon, starting Wednesday, and continuing until the end of the campaign, which lasts until November 20. At these noonday meetings progress of the various teams will be reported by their captains. It is expected that considerable rivalry will be developed between the women's and men's teams, respectively called the navy and army. These luncheons are to be provided by the Y. M. C. A. without charge to the workers.

Headquarters of the drive are at 11 Macdonald avenue, where all reports will be made and new names secured. Volunteer workers can also report there and will be furnished full instructions for aiding in the local canvass. The telephone number is Richmond 1471.

The names of captains in charge of the various teams of workers are Mrs. John Gerlach, Mrs. Clara Wilson, Councilman H. O. Watson, Rev. Frank Linder, Captain Oscar Long, and Ralph W. Ames. Sec. E. A. Maas of the Chamber of Commerce will be stationed at headquarters as local campaign manager.

Following the banquet last night, many of the present adjourned to the T. & D. Theatre where a very interesting motion picture, showing Y. M. C. A. scenes at Camp Lewis and numbers of the local boys there, playing games, writing games or otherwise engaged was exhibited.

Local items are interesting to read, no matter how short, so if you have a piece of news that you would like to see in print, let us have it.

Lamoine Writes Letter

(Continued from page 1)

on boards.

"One can hardly grasp the difference of the front and when arriving at Paris—taxi going in all directions, people in civilian clothes and a bunch of women.

"The next day I took my examinations for the aviation service and passed O. K.

"On the third afternoon another fellow and I went over the Seine river to Napoleon's tomb. In the courtyard they have a bunch of German trophies from this war. This building is devoted to Napoleon's trophies and body. There are so many things that I will have to tell you all about it I come home.

"Coming back, we passed the famous Eiffel tower, and it is impossible to describe how large it is.

"I go to train at Tours for the aviation service and expect to leave here in about two weeks, but at present we are awfully busy and they are working the deuce out of us for a big offensive. You will hear of it before this letter reaches you. It will be on the Chemins des Dames and believe me, they certainly are going to drive the Huns out. The preparations for it is wonderful. Would like to write about it, but can't tell it takes place.

"Every one in U. S. must think that they will drive the Huns into Berlin in a hurry, but Berlin is a long way off, and it is going to be one stiff job to drive them out of France. They are dug into the ground like rats, and it is going to be more of a job than one expects, for they stick like glue. This trench fighting is very slow stuff and to gain much ground even after a deuce of a fight. Everyone here is wondering what the U. S. will do when she takes over our Camion section, and just when she will take it over. On the first of October the American Field Service goes out of existence, and we will be U. S. privates at \$33 per. Most all of the fellows have signed up for some other service, chiefly aviation, and we go to training quarters at Tours, possibly in two weeks. We enter as privates and train for three to six months. If we make a pilot's license we will be first lieutenants at least, and maybe something better, according to each one's qualifications. If we don't become pilots we remain privates, and they can send us anywhere. If I don't become a pilot I can stay in aviation as a photographer, or possibly a wireless operator; everything depends on how good you are at the line you are in. Anyway we are all here to do as much as we can, so it does not matter much what happens to us as long as we can do something. The French think that the war will end in the spring, after the big offensive, and I think so also, but a lot depends on what the U. S. does. We all know she can't and will not fail.

"Had a stiff trip the other night. They sent us up one deuce of a steep hill about a half a mile from the first trenches. This is close for our big trucks and the roads were slippery and full of shell holes. They made driving terrible. About nine cars got stuck in the ditch and were all pulled out except one—Ben Burton's and Herb Hope's. They had to stay all night in the cold and rain. In the morning the Boches saw them and began throwing in 105 obus, 4-inch shells. Two Frenchmen were killed near them, but the California fellows got out O. K.—mighty lucky. Two fellows were wounded in another Camion section just over the hill from us, but think they will live. This was the Harvard section. We are still working hard and, as winter is setting in, it is getting cold. We almost freeze when we are out at night.

Technical Department Bulletin

Peerless Motor Car Co.

To All Dealers:

For your information we wish to advise that in our experiments and tests here at the factory with our new eight-cylinder car, we have been able to secure uniformly better results with Standard Oil Company's Zerolene motor lubricant than with any other which we have used.

Endorsed by Peerless Motor Car Co.

The above letter sent out from the factory to all Peerless dealers is an unsolicited testimonial to the perfect lubricating qualities of Zerolene. Less wear, more power, least carbon deposit—because correctly refined from California asphalt-base crude.

Dealers everywhere and at our service stations.
